Using Guest Manager for Curbside Service

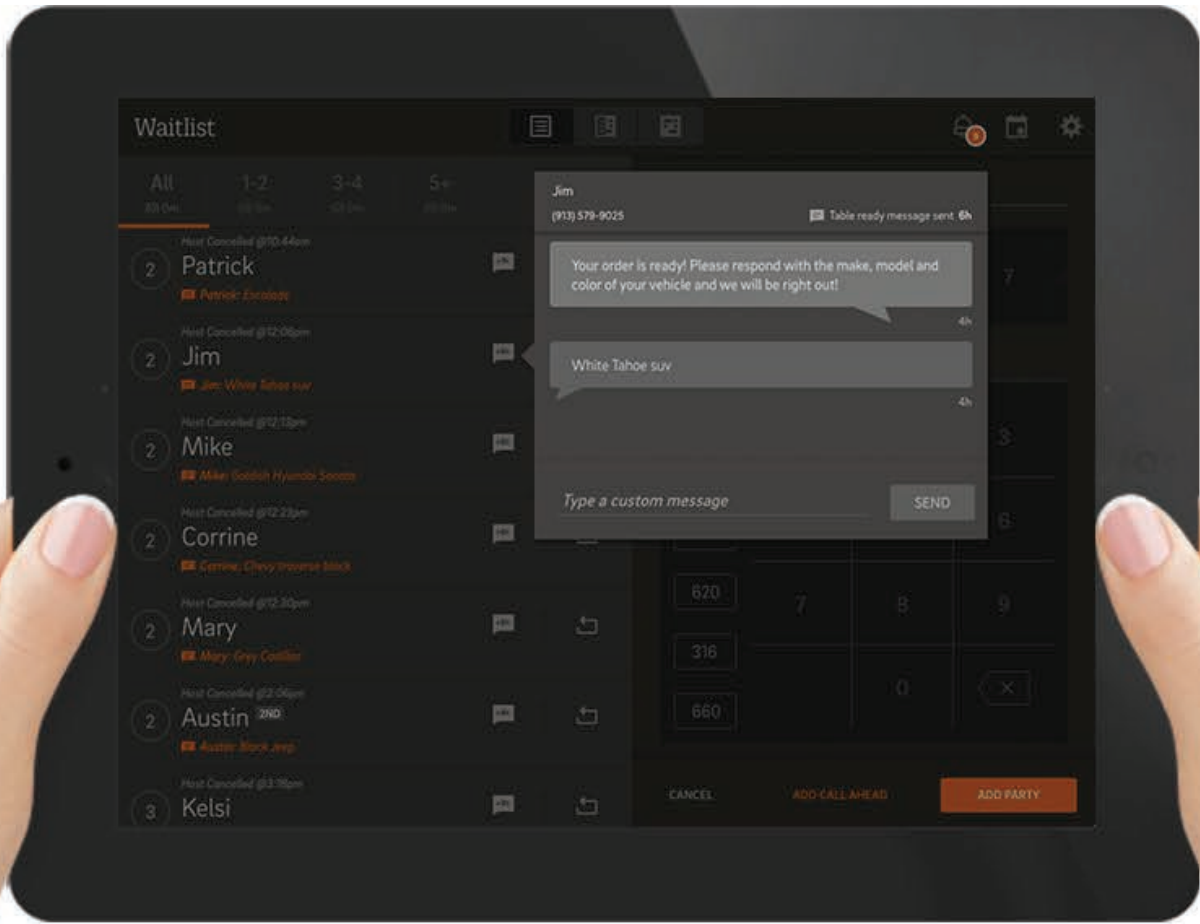

Great for restaurants who are providing curbside pickup, or those looking to start.

Many restaurants are still providing curbside pickup for their customers during the COVID-19 crisis. However, owners and managers are finding the line of cars hard to manage and can quickly feel overwhelmed. CAKE Guest Manager can help.

By using CAKE Guest Manager to allocate orders and keep track of customers, restaurants are able to quickly and efficiently get orders filled and avoid long lines and frustrated guests.

Adding to our efforts to help our customers and restaurants navigate these troubled times, we're temporarily waiving the monthly fee on our Guest Manager solution. For a limited time, you can offer CAKE Guest Manager to your partner restaurants at no charge and help them manage their curbside service.
